OBJECTIVE

Computer Science student in the American Degree Transfer Program (AUP) at INTI International College Subang, seeking admission to a globally competitive university to deepen my skills in software engineering and artificial intelligence. Founder of two AI products, with hands-on experience taking applications from idea to live deployment.

EDUCATION

INTI International College Subang 2025 – Present
American Degree Transfer Program (AUP), Computer Science & Engineering | Subang Jaya, Malaysia
Focus: Web Development, Software Engineering
Interests: Artificial Intelligence, Data Science & Analytics

Advanced Residential Model College 2021
Higher Secondary Certificate (HSC), Science | Mymensingh, Bangladesh

Kurigram Govt. High School 2019
Secondary School Certificate (SSC), Science | Kurigram, Bangladesh

PROJECTS

Personal Portfolio Website (shahriarevan.com) 2026 – Present
- Designed and developed a portfolio website to showcase projects and technical work.

WritexNova – AI Writing SaaS Platform (writexnova.com) 2026 – Present
Founder & Full-Stack Developer
- Designed, built and launched a live SaaS platform for AI-powered writing and productivity.
- Integrated the OpenAI API for humanization, paraphrasing, grammar checking, summarization and translation.
- Implemented user authentication, subscription plans and an admin dashboard.
- Deployed the backend on Render and the frontend on Vercel; independently manage the full product.

Kyvro – Clothing Brand E-commerce Website (kyvro.store) 2026 – Present
Founder & Developer
- Built an online store for a fashion brand with Men's, Women's, Shoes, Wallets and Watches categories.
- Added cart, order tracking, currency selector, dark mode and promotional discount offers; deployed on Vercel.

AIXNova – AI Workspace Web Application (aixnova.vercel.app) 2026 – Present
Founder & AI Developer
- Built and launched an AI workspace for chat, writing and research, integrating multiple LLM providers behind a single interface.
- Handle full-stack development, deployment and monetization independently.

StreamFlix – Live Sports Streaming Platform (streamflix-orpin.vercel.app) 2026 – Present
Founder & Developer
- Built a live sports streaming platform with multi-channel playback, sport filters and a stage-wise match schedule, backed by a custom Node.js proxy for stable content delivery.
- Redesigned the match and sports UI and integrated ad-based monetization; manage hosting and deployment independently.

SKILLS

Programming: JavaScript, Node.js, HTML/CSS, Python (Basic), C++ (Basic)
Tools & Platforms: Firebase, Vercel, Render, GitHub, VS Code, Microsoft Office
AI & APIs: OpenAI API, AI content generation and integration
Soft Skills: Problem-solving, Teamwork, Leadership, Self-learning, Communication

EXPERIENCE & ACTIVITIES

Team Leader & Presentation Designer – 1 Plate 1 World Oct – Nov 2025
INTI International College Subang
- Led a multicultural team, designed the visual materials and presented the final project to the class.

Event Organizer – INTI English Carnival Jul 2025
- Helped organize and manage a campus-wide event, coordinating with a team to ensure smooth operations.

Cricket Player – Mymensingh 2nd Divisional League Aug 2022 – Mar 2023
- Competed at the regional level, demonstrating discipline, teamwork and performance under pressure.

ACHIEVEMENTS

- 3rd Place – Inter-College Programming Contest, Advanced Residential Model College (2020)
- School Cricket Tournament Winner – Kurigram Govt. High School (2017)
- Science Project Fair Participant – Kurigram Govt. High School (2018)

CERTIFICATIONS

- CS50: Introduction to Computer Science – Harvard University (edX)
- JavaScript Programming Certificate – Coursera
- AI Application Development & OpenAI API Integration – Self-Learning
- Computer Training Certificate (MS Office & IT Basics) – Oxford Computer Training Institute, 2016
